FOR TANK FARMS

Inspector ✚

ASSURING ACCOUNTABILITY, PRODUCTIVITY & MAINTENANCE TRACKING.

With new industry technology, Inspector+ offers a more robust way to complete daily, monthly, quarterly, and annual mandatory inspections and assessments while storing data wirelessly.

Employees can complete inspections from various locations while managers can view real time data in one centralized database.

✓ **MAINTENANCE TRACKING**

✓ **ELIMINATES PENCIL WHIPPING**

✓ **MANAGEMENT TOOL**

INSPECTOR+ FOR ANDROID.

📱 LTE

A unique & user friendly cloud computing system on Android platforms that can be used from handheld devices anywhere in the field.
An easy to navigate software allows for customization and streamlined inspection processes.

MANAGEMENT TOOL

Managers can assign & review inspections and reduce the need for maintaining books or records. Centralized data makes it easy to pull reports and keep track of inspections.

TIME & DATE STAMPING

Allows managers to ensure compliance by viewing the "who, what, when, and where" from any location to efficiently manage employee progress.
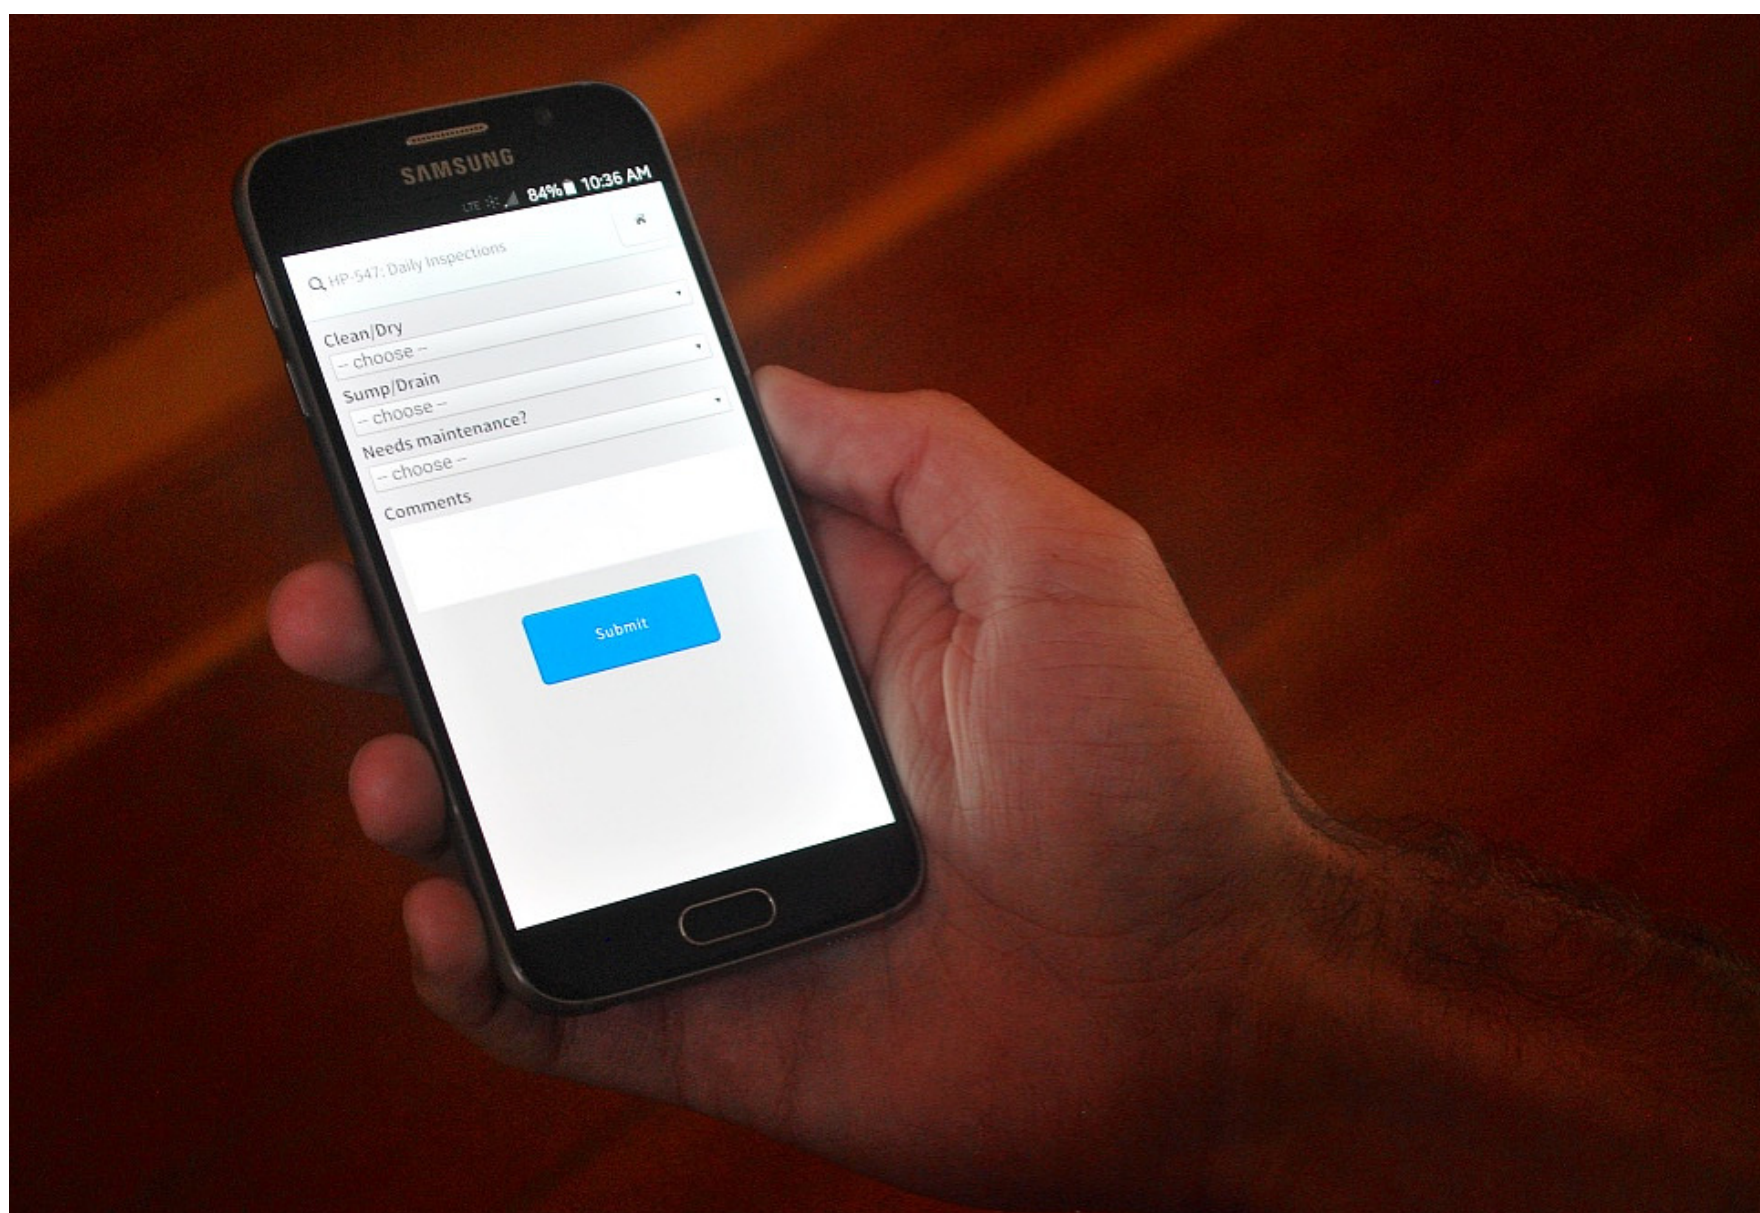

INCREASE PRODUCTIVITY

Barcode technology provides a fast and reliable way to identify, track, and manage inspections while eliminating out of date processes.

MAINTENANCE TRACKING

Assists in identifying problem areas while managers can create work orders to pass on to maintenance staff to solve issues quickly and efficiently.
STREAMLINING

Inspector+ is a one-of-a-kind management system that simplifies the way businesses conduct assessments, inspections, and work order processes. By streamlining the process, it saves time and money by maximizing efficiency and reducing labor hours.

Inspector+ reduces the need for multiple software solutions and reduces IT costs and support needs. It also eliminates the need for books and records by centralizing all data in one system. New cloud based technology makes it easy for managers to identify problem areas and increase daily routine efficiency while ensuring each inspection is being completed thoroughly.

CLOUD COMPUTING

Now, Inspector+ is available in a hosted version as a Software As A Service (SaaS) or as a total solution. Our monthly user fee eliminates up front investment as well as eliminating the need to maintain an additional PC or cradle.

With only WiFi or LTE needed, staff can work collaboratively on inspections, documents, and more from any location constantly guaranteeing consistent communication and ensuring compliance in mandatory inspection checks.
